

Sprint #1 Report

Team: The WorldBuilders

Product Name: WorldBuilder

Date: 10/20/19

Actions to stop doing:

- Stop overestimating the amount of work that we can get done per sprint
- Stop being late for the meeting
- Upload the kanbanflow board late
- Inconsistency for the physical whiteboard and Kanbanflow
- Stop creating redundant tasks

Actions to start doing:

- Start to scope down for the sprint
- Start the kanban flow early for the to have a visual task board online
- Give specific and meaningful task
- Start having more tasks focused on specific outcomes rather than spikes
- Push everything we have to github as soon as possible
- Make meetings more consistent in their time frames
- Start having jam sessions where we are all working at the same time
- Complete the user stories we set out to complete at the start of the sprint

Actions to keep doing:

- Working collaboratively
- Coming to meetings
- Communicating

Work Completed:

- As a GM I would like to be able to generate a world map (World map generation)

Not Completed:

- As a user I'd like to be able to interact with the application without learning unix (GUI)

Work completion rate:

- Total number of user stories completed during the prior sprint:
 - 1 user story
- Total number estimated ideal work hours completed during the prior sprint:
 - 26 hours
- Total number of days during the prior sprint:
 - Technically 14 days
- For the previous sprint, the user stories/day and ideal work hours/ day figures should be reported
 - User stories per day: 1/14 stories per day
 - Ideal work hours per day: 1.857 hours per day
